--from *Q for Ted Estlin*

from a locus
which may or may
not perhaps it's
just an old
man's something of
value whatever that
maybe if some
of our contemporaries
from a mine
maybe Keats
understood
it best in 'the
poetry of earth'
the locus is
of value I
sometimes wonder if
from a mine which
may or may not
turn up something
perhaps it's just
astigmatism have
forgotten this or
may not turn
up something of
value the locus
is and maybe

Keats from a
mine if some of
our contemporaries have
'is never dead' I
think I try I
sometimes wonder just
an old man's
astigmatism try to
write from a
and maybe Keats
understood whatever
that may be the 'poetry
of earth is
never dead'
